Instruction on how to use this ICE-Alert card.

- 1) Take a print out of this document.
- 2) Cut along the marked edges so that you get 2 individual cards [Front Side and Back Side].
- 3) Glue the Front Side and Back Side together on their back such that you can read the text on the outside
- 4) Wait for the glue to dry
- 5) Put it in your wallet as you would your driving license or other ID cards.
- 6) You could also laminate the card so that it is protected when it comes in contact with liquid.
